Atelier dell'Errore

AdE (Atelier dell'Errore / Atelier of Mistakes) is an artist collective dedicated to visual arts and performance based in Reggio Emilia, Italy. Founded in 2002 by the artist Luca Santiago Mora, who today leads the group of 12 neurodivergent artists as their artist director, AdE's practice spans drawing, painting, sculpture, photography, and performance. The collective is guided by two core rules: animals are their only subject matter, and during the creative phase nothing is ever erased, preserving the transformative potential of every so-called mistake.

Since the collective's establishment in 2015, the Collezione Maramotti in Reggio Emilia, Italy, has hosted AdE as an ongoing project.
